

Welcome

W E L C O M E

Our cooking is simple and we want to cook as honest food as possible. At the same time it must be creative and exciting.

It should always be good, very good!
We use the best ingredients in season and preferably from small, local manufacturers.

Because the food tastes better when we know who have taken care of the animals, cultivated the vegetables and fished the fish.

Welcome to our restaurant, with roots in Scandinavian cooking and with inspiration from the whole world.
